

# Open Salts

## R. Wetzel Glass Co. Zanesville, Ohio

In 1974 Bob & Vicki Wetzel started a small glass business. Bob a mold maker made some original salt molds in 1977. These did not sell well and he sold the molds in 1979. The location of these molds were not known by collectors until 1998 when it was discovered that Fred Wilkerson had 3 of them. In 1984 Bob purchased several molds (including some open salt molds) when several hand glass shops closed. He reworked some molds to make salts and others were his own originals. (He also made the NESOSC Anniversary Salt Mold). This venture did not prove as profitable to him as his mold making and glass paperweights, so he sold his remaining salt molds and inventory to Ed Bowman. (E & E Collectables )(Now Ed Bowman Collectables) in 1986.
